STUDY BUSINESS AT TREVECCA

“I am eternally grateful for the one-on-one mentoring I received from the Business professors at Trevecca. They had a genuine approach to helping me mold a path to future success and connected me with alums who were responsible for my job offers from public accounting firms. For the last 15 years, I have managed Private Wealth for executives and professional athletes across the country. The positive traits I utilize in running my practice today, including transparency, trust, and open communication, directly correspond to those modeled for me at Trevecca.”

— **PATRICK CONGER**
BBA in Accounting, 1997
Investment Adviser, LPL Financial – Nashville

“I will debate with anyone that the impact TNU made on preparing me for my career was better than I could have received at any university in the country. Why? The TNU business degree prepared me in leadership, the importance of relationships, and most of all, applying spiritual tools to my daily life. Once I left TNU and completed my MBA plus Doctorate at other universities, I realized even more how special the TNU Business degree was in preparing me to be not only academically ready for my life journey but spiritually ready.”

— **DWAYNE GUNTER**
BS in Business Administration, 1988
Senior Vice President Business Development, Parallon/HCA
